## Summary

Python Developer with expertise in AI-powered applications, developer tools, and scalable backend systems. Strong foundation in software engineering, debugging, REST APIs, and building intelligent AI solutions using Python, LLMs and agentic technologies.

## Technical Skills

**Programming Languages:** Python, JavaScript, SQL, C++
**AI & LLMs:** LangChain, LangGraph, RAG, Vectorless RAG, Vector Database & Embeddings, Deep Agents, Guardrails, LLM Evals, LLM Gateways
**Frameworks:** React.js, Next.js, Node.js, Express.js
**Databases & Tools:** PostgreSQL, MongoDB, MySQL, Git, GitHub Actions, Linux
**Core Concepts:** DSA, OOP, DBMS, Operating Systems, Computer Networks, System Design

## Work Experience

**Ezwiiz Frontier Systems** | FULL STACK DEVELOPER **Dec 2025 – Present**

- *Promoted to a full-time role after a successful internship, contributing to the end-to-end development and enhancement of the EzoHR HRMS platform.*
- *Engineered scalable full-stack features and optimised REST APIs and PostgreSQL operations. Delivered multilingual support, task and asset management features, and user experience enhancements.*

**QuadB Technologies** | BLOCKCHAIN DEVELOPMENT INTERN **Feb 2025 – Jun 2025**

- *Restructured and deployed 5+ blockchain smart contracts, reducing transaction gas fees by 30%.*
- *Led a team of 4 developers in conducting 10+ smart contract audits, improving security compliance by 40%.*

## Education

**Punjab Technical University, Punjab, India** **2021 – 2025**

- *Bachelor of Technology in Computer Science | CGPA: **8.12/10***

## Projects

**CodeSage AI |** GitHub | Live Demo **Jun 2026**

*An AI-powered code intelligence platform for automated repository analysis, pull request reviews, and intelligent software engineering assistance.*

- Built a full-stack AI platform using Next.js, FastAPI, PostgreSQL, LangGraph, and LLMs to analyse repositories, review pull requests, and provide actionable code quality insights.
- Developed a multi-agent workflow for bug detection, security scanning, performance analysis, code refactoring, documentation generation, and automated test creation with detailed review reports.

**TutorialHub |** GitHub | Live Demo **May 2025**

*An AI-Powered Platform for Automated Educational Course Creation and Delivery.*

- Built a full-stack app using React, Node.js, Clerk, and Gemini AI to generate course content, quizzes, and YouTube-integrated video lessons.
- Integrated Clerk authentication and Razorpay payments; generated 50+ test courses.

**Imaginify |** GitHub | Live Demo **Apr 2024**

*An AI-powered image enhancement tool that restores textures, fills gaps, and removes backgrounds.*

- Composed an AI image enhancement tool, improving clarity by 70% across 200+ images.
- Achieved a Lighthouse performance score of 95+ across desktop and mobile, with a focus on responsiveness and accessibility.

## Achievements

- Won first place in the university-wide **Spardha Sports Meet Chess Competition**.
- Placed second in solo singing at **Aagaaz 2.0**, the university's premier cultural festival.

## Leadership Experience

**Crosslinks – Club Handling Committee |** President **Dec 2022 – Aug 2024**

- *Led 10+ members and managed 4+ inter-college tech events, increasing participation by 50%.*

**TechzHut – Coding Club |** Deputy President **Aug 2023 – Jun 2024**

- *Organised weekly coding sessions and tech workshops for 100+ students.*
